

ACKNOWLEDGEMENTS

With deep sense of gratitude I wish to express my sincere thanks to my Guides Dr.S.M. Bujarbaruah Professor and HOD Mathematics, University of Science and Technology, Meghalaya(USTM) and Dr.Tapas Kumar Sinha, Department of Biomedical EngineeringNorth Eastern Hill University (NEHU) for their invaluable help and excellent guidance in writing this thesis. Their constructive criticism, valuable comments and constant encouragement is some of the memories to be cherished for the whole life. This research would not have been possible without their support. I hope this is not the end but just the beginning of a lifelong partnership.

I am very much grateful to University of Science and TechnologyMeghalaya, (USTM), the ChancellorMr. M. Hoque,Vice-Chancellor, Dr. PG Rao,Pro-vice-Chancellor, Dr. R.KSarma, Registrar, Mrs.AnjuHazarika, Dy. Registrars Mr. NurujjamanLaskar, Mr.ShamimGoney, Controller of Examination, Dr. C.R. Sarkar, Dy. Controller of ExaminationsDr. Gautam Kr. Sarmah, and all others for giving me necessary facilities and encouragements (including Computer lab) from time to time while pursuing my research work. I am very much grateful to Vice-Chancellor Dr. Rao for scrutinizing my draft thesis and spending hours with me and my guide for giving constructive suggestion for the better presentation of my final theses. USTM has given me a wonderful chance to work hard, think and use my potentialities for producing some papers in Mathematics with my Supervisors. My Sincere thanks to all the administrative, teaching and nonteaching staffs of USTM who had helped me someway or other directly or indirectly during the last 3 years of my PhD work. All of them I found friendly, dedicated hard working and very helpful. I salute to all of them.

I thank all the faculty members of the School of Applied Sciences of USTM for giving me necessary facilities and guidance from time to time while pursuing my research work especially during the course work time.

I am also grateful to my, well-wishers and other PhD Scholars of USTM for their support and for being my constant source of inspiration.

I am grateful to Computer Centre NEHU and all the directors and the staffs for allowing me to work in their department for the last 8-10 years. I thank Mr. ParthaPratim Sr. Sys. Analyst in a special way for the help, support and encouragement he has given to me whenever I visit Computer Centre NEHU.

I thank Mr. Manoj Kumar K, Scientist-D (CS), INFLIBNET Centre, Gandhinagar, Inter University Centre of University Grants Commission, Infocity Gandhinagar – 38200, Gujarat, for giving me information about the Anti-plagiarism Certificate for the thesis.

I thank Dr F.R. Sumer Deputy Librarian North Eastern Hill University for helping me to get Anti-Plagiarism Certificate from NEHU central Library, Shillong using Urkund, software adopted by UGC in Universities in India.

I also thank my Colleagues Dr. (Mrs) I. Devi (retired), Dr. Sanjeeve Kumar Singh and Dr. Deiborlang Nongsiang of Mathematics department of Union Christian College for their constant help, encouragements and support. I also thank Mr. S. Chanda, Associate Professor in Mathematics, of Shillong Polytechnic for his encouragement during my PhD work.

I thank Dr. S.R Lyndem, Principal Union Christian College Barapani, Shillong who has motivated me to register for PhD works, for paper publications and allowing me to use DST Computer labs and internet facilities of Union Christian College day and night for my research works.

I thank the family members of Dr. Tapas Kumar Sinha for welcoming, allowing to stay and work in their house during my winter holidays and other holidays.

I am thankful to God Almighty, my family and to my Parents who give me life and strength to work in all even and odd conditions.

(Joseph Mathew)
