Or

Write a Precis from the following paragraph and give a suitable title:

10

Artificial intelligence is becoming increasingly important in a variety of industries, from healthcare to finance to manufacturing. This is due to the ability of AI systems to analyze large amounts of data quickly and accurately, identify patterns and trends, and make predictions based on that information. As these systems continue to evolve and improve, they are likely to have a significant impact on the way many industries operate, potentially leading to increased efficiency, cost savings, and improved outcomes for consumers.
